Saturday 06/13 Plan and Procedures

Hello Everyone,

Wanted to give an update about security and procedures for Saturday 06/13 -

- There will be an increased security presence on-site, with armed guards to ensure employee safety.
- The police are aware of the situation and are monitoring.
- The gate will be locked and employee badges will be required for entry.
- There will be no entry or exit between the hours of 11a & 4p.

This means you need to be here, or gone for the day, by 11a... or be willing to wait until 4p. This is being done to ensure no one is able to get into the facility with the gate opening and closing during the planned rally time. I will be working on adjusting schedules today. If you are unsure how this might affect you, please let me know.

- Please park in the parking lot, not out on the street. Please avoid parking along the fence. Fill in the middle section first.
