Re: Complaint against Sean P. Conley, DO

Dear Mr. West:

The District of Columbia Board of Medicine (Board) is in receipt of your complaint against Dr. Sean Conley, regarding his treatment of President Donald Trump. The Board appreciates and respects the concerns that led you to filing the complaint at issue, however, the Board cannot address this matter as Dr. Conley is a federal employee and not licensed in the District. Therefore, the Board has no jurisdiction over Dr. Conley's practice.

Regarding any issues related to the President's care and treatment at Walter Reed Hospital — due to its location in Maryland, that facility is also outside of the DC Board's jurisdiction. Therefore, any concerns or complaints must be filed with the Maryland Board of Physicians. Please note, all states have their own regulatory Boards and can only address issues/incidents that occur within their own jurisdiction.

Should you become aware of any issues regarding DC licensees, please do not hesitate to contact us. Thank you.

Sincerely,

Frank B. Meyers, JD
Executive Director
DC Board of Medicine
