Subject: Official Lincoln Club Business League of San Diego Statement  
To: Corey Gustafson <[corey@coreyforsandiego.com](mailto:corey@coreyforsandiego.com)>

Dear Fellow 2024-2028 Central Committee Members,  
I've attached to this email a letter the Lincoln Club Business League sent me today. It clarifies much of the misinformation that is currently circulating.

Lincoln Club Chairman Dan Hom and Chairman-Elect Scott Bedingfield wrote, "Recent statements have inaccurately attributed positions or actions to The Lincoln Club Business League concerning internal matters of other organizations. To clarify: our organization has not authorized the use of its name in connection with these disputes, nor have we made any official decisions in or statements regarding the leadership or internal dynamics of the San Diego Republican Party or other entities."

I look forward to working with all of our coalition partners in my next term to advance our common principles- including (but not limited to) the Lincoln Club, New Majority, Reform California, Republican Women groups and conservative grassroots organizations around San Diego County. We have a lot of work to do and I can't wait to continue the progress we've already made at the Republican Party of San Diego County.

Best wishes,  
Corey Gustafson  
Chairman, Republican Party of San Diego County
