Greetings, Paula et al

I'm preparing a story on how leading San Diego Republicans feel about the Epstein files — specifically: Should the DOJ release the files?

Here are my questions:

1. Should the DOJ make public the Epstein files unredacted or redacted or not all? Why or why not?
2. Did you support Speaker Johnson's decision to call an early summer recess? Why or why not?
3. Do you agree with the [FBI's July memo](#) that "it is the determination of the Department of Justice and the Federal Bureau of Investigation that no further disclosure would be appropriate or warranted"?
4. Do you have any concerns that President Trump may pardon or commute the sentence of Ghislaine Maxwell? Why or why not?
5. What have you heard from your constituents on the Epstein issue?
6. How might the Epstein issue affect GOP election prospects in 2026?
7. Anything else readers should know about this matter?

Thanks for your kind attention. I plan to write a story at the end of this coming week.
